RE: Pre-Demolition Survey Report (PDSR) for Buildings 559 - Approval

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the PDSR for Building 559 (Version 0, dated January 31, 2005). Your letter regarding this PDSR, dated February 9, 2005, was received on February 11, 2005. We have provided comments, agreed on resolutions, and received modifications to the initial PDSR Document. Our comments included concerns with recognition of the asbestos ducts remaining in the slab and performing additional radiological investigations on the exterior and interior to the appropriate PDSP Data Quality Objectives. Based on the information contained in this PDSR and the agreed upon modifications, as well as inclusion of the additional data collected, we are hereby approving the PDSR for Building 559.

As stated in this PDSR, radiologically contaminated areas remain in B559 that will be removed. We expect that, as stated, all of the remaining contamination will be properly identified, protected, segregated, controlled, and removed. It is also our understanding, as stated, that the entire B559 slab will be removed.

It is also our understanding, as discussed in the PDSR, that the remaining asbestos contamination will be properly protected, controlled, and removed.

All demolition activities and related issues, including but not limited to the ultimate disposition /disruption of the under slab process waste lines, sanitary and storm drains, and foundation drains will be discussed and resolved utilizing the consultative process.

If you have any questions regarding this correspondence please contact me at (303) 692-3367, Denise Onyskiw at (303) 692-3371 or (303) 966-6687, or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
